KEY RESULTS

40 **Main designs created**
to positively benefit the improvement of municipal infrastructure in the fields of education, culture, social services, tourism and waste collecting and disposal

31 **Detailed regulation plans developed**
to positively benefit the improvement of municipal infrastructure in the fields of education, culture, social services, tourism and waste collecting and disposal

18 **Priority local infrastructure projects**
improve the social and economic infrastructure in municipalities

11 **Projects introducing the geographic information system into LSGs**
facilitate easier development planning

5 **Anti-erosion protection projects**
contribute to the protection of citizens and their possessions from the effects of floods

5 **Detailed regulation plans and a tourist destination management study**
enable the sustainable development of the Golija tourist destination, as well as of the five adjacent municipalities

1 **Building constructed**
according to the highest European standards to house the Bujanovac department of the Subotica offers quality bilingual education in South Serbia

OVERVIEW

Through European PROGRES 112 important infrastructure projects were supported with 5,480,093 Euros.

The European Union and the Government of Switzerland have earmarked close to 5.5 million Euros for the implementation of more than 100 projects geared towards the improvement of infrastructure in 34 municipalities of Southeast and Southwest Serbia, partially through direct support to the realisation of priority municipal infrastructure projects and partially through strengthening local capacities for implementing such projects.

The construction of the facilities for the Bujanovac department of the Subotica Faculty of Economics stands as the most striking result of these efforts. The building worth almost one million Euros was constructed in mere nine months in accordance with the highest European standards. The Programme has dedicated 1.8 million Euros for 18 priority municipal infrastructure projects which will improve communal services, enhance energy efficiency in public buildings, construct or renovate institutions of health or social protection and sports facilities, but also create or improve the business environment in municipalities. Over 300 thousand Euros was directed into the development of main designs which will serve as a starting point for building or reconstructing schools and municipal cultural centres, improving the provision of communal services and advance the energy efficiency of public buildings.

Additional half and million Euros invested into conducting technical, biotechnical and biological works on the anti-erosion protection of the water courses of Raška river and Pusta reka will protect the inhabitants of five municipalities from the effects of floods, while the same is expected out of the projects for the protection of Jablanica, Vlasina and Pčinja river basins, which are currently in preparation.

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|--|--------------|--|--------------------|---|
| 1. | Technical documentation / Main design development | Babušnica | Development of the Main Design for the Reconstruction and Renovation of the Market Place With Access Roads | 9,194 | The development of the main design for the reconstruction and adaptation of the marketplace and the necessary access roads. The technical documentation will create conditions to improve the economic potentials of the local population predominantly engaged in agriculture and dairy farming. |
| 2. | Planning documentation / Detailed regulation plans | Babušnica | Detailed Regulation Plan | 12,750 | Development of the detailed regulation plan of the business - production complex in Babušnica will create preconditions for the improvement of the business environment in the municipality. |
| 3. | Planning documentation / Detailed regulation plans | Babušnica | Detailed Regulation Plan | 2,250 | Development of the detailed regulation plan of the Babušnica wastewater treatment plant will create the preconditions for the improvement of the quality of water supplied to the citizens of the municipality. |
| 4. | Construction works / Local infrastructure project | Babušnica | Enhancing energy efficiency of the Culture Centre | 100,000 | Replacement of joinery and facade works on the Cultural Centre will reduce energy consumption and expenses, improve overall conditions in the Cultural Centre and contribute towards an improved energy management system at municipal level. The building hosts several organisations as well: Public library, Tourism Organization of Babušnica Municipality, Local Community Office and Citizens' Association "Green Earth". |
| 5. | Technical documentation / Main design development | Bela Palanka | Development of the Main Design for the Reconstruction of the Primary School "Ljupče Španac" in Bela Palanka | 2,771 | The development of the main design for the reconstruction of the Primary School "Ljupče Španac" in Bela Palanka will create conditions for improving the building's energy efficiency. |
| 6. | Technical documentation / Main design development | Bela Palanka | Development of the Main Design for the Expansion and Upgrade of the Rainwater Sewage in the Settlement of Bela Palanka | 13,193 | The development of the main design for the expansion and upgrade of the rainwater sewage in the settlement of Bela Palanka which will reduce the damages after heavy rains and floods. |
| 7. | Technical documentation / Main design development | Bela Palanka | Development of the Main Design for the Reconstruction of Public Lighting in the Municipality of Bela Palanka | 13,318 | The development of the main design for the reconstruction of Public Lighting in the Municipality of Bela Palanka to create preconditions for ensuring funding for the reconstruction of the street utility infrastructure in the municipality. |
| 8. | Planning documentation / Detailed regulation plans | Bela Palanka | Detailed Regulation Plan | 9,329 | Preparation of the detailed regulation plan for the industrial zone "Murica 2" in Bela Palanka. |
| 9. | Services to municipalities / Geographic information system (GIS) | Bela Palanka | Introduction of the GIS | 98,250 | The project aims to promote investments into industrial zone locations near Corridor X and the creation of a cadastre of underground lines. The production of a detailed regulation plan for one industrial zone covered by the project is already being funded by European PROGRES. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|---|-----------------|--|--------------------|--|
| 10. | Construction works / Local infrastructure project | Bela Palanka | Reconstruction of the primary school "Ljupče Španac" | 62,393 | The working conditions in a school with more than 700 pupils will improve, which should positively impact the wider municipal strategic approach to increasing energy efficiency of public buildings. |
| 11. | Technical documentation / Main design development | Blace | Development of the Main Design for Extending and Reconstructing of the Social Protection institution Facility in Trbunje | 8,771 | The development of the main design for extending and reconstructing of the Social Protection Institution facility in Trbunje in order to improve the living conditions of citizens living in the accommodation centre and working condition of the employees. |
| 12. | Planning documentation / Detailed regulation plans | Blace | Detailed Regulation Plan | 2,526 | Drafting of the detailed regulation plans for the work zone "Fruto2" will create the preconditions for attracting investments into the municipality. |
| 13. | Planning documentation / Detailed regulation plans | Blace | Detailed Regulation Plan | 12,349 | Drafting of the detailed regulation plans for the work zone "Gornja Draguša" will create the preconditions for attracting investments into the municipality. |
| 14. | Technical documentation / Main design development | Bojnik | Development of the Main Design of the Building for Entrepreneurship Development Centre in Bojnik | 6,750 | The development of the main design for the construction of the municipal building to house entrepreneurship development centre which would have direct impact on the economic development of the municipality. |
| 15. | Technical documentation / Main design development | Bojnik | Development of the Main Design of the Building for Social Housing in Bojnik | 4,594 | The development of the main design for the construction of a facility to improve living conditions of the most vulnerable of Bojnik municipality population. |
| 16. | Planning documentation / Detailed regulation plans | Bojnik | Detailed Regulation Plan | 13,860 | Formulation of the detailed regulation plan for the business zone in Kosančić will create the preconditions for attracting investments into the municipality. |
| 17. | Construction works / Local infrastructure project | Bojnik | Completion of the water supply network | 98,173 | Finalising the construction of the water supply pipeline and provision of drinking water to some 1,800 people should contribute to the reduction in the number of patients suffering from jaundice and prevention of spreading infectious diseases. |
| 18. | Technical documentation / Main design development | Bosilegrad | Development of the Main Design for Atmospheric Sewerage of the Central Part of Bosilegrad Municipality | 11,117 | The development of the main design for the atmospheric sewerage of the central part of Bosilegrad Municipality. In this way, all atmospheric precipitation that now goes uncontrollably and creates sand, gravel and other materials, would be directed into the natural flows of the Dragovištica River and Dobri Dol stream, which have a regulated riverbed in this area. |
| 19. | Construction works / Local infrastructure project | Bosilegrad | Development of culture through the improvement of the Cultural Centre - Reconstruction of the Culture Centre and Procurement of Modern Equipment | 49,544 | The reconstruction of the ruined, leaking roof and procurement of modern equipment will result in full functionality of the local Cultural Centre, the library and the Centre for Social Work, which are sharing the same building. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|---|-----------|--|--------------------|---|
| 20. | Planning documentation / Detailed regulation plans | Brus | Detailed Regulation Plan | 2,376 | Formulation of the detailed regulation plans for the Agribusiness Centre will create preconditions for attracting investments into the municipality. |
| 21. | Planning documentation / Detailed regulation plans | Brus | Detailed Regulation Plan | 12,624 | Formulation of the detailed regulation plan for the Spa Park will create preconditions for developing tourism in the municipality. |
| 22. | Construction works / Local infrastructure project | Brus | Building the House for Children with Disabilities | 95,400 | By building the House for Children with Disabilities an enormous improvement in the quality of life of 30 children and up to 200 family members will be made. Not only will the children get access to education and be engaged socially, but their parents will be able to seek at least temporary employment and generate income. The project was developed and will be carried out in partnership between Brus Municipality and local Association for Mental Disabilities. |
| 23. | Technical documentation / Main design development | Bujanovac | Development of the Main Design for the Construction of the Community Cultural Centre in Muhovac | 1,785 | The development of the main design for the construction of the community cultural centre in Muhovac necessary to house local cultural activities. |
| 24. | Technical documentation / Main design development | Bujanovac | Development of the Main Design for the Construction of the Community Cultural Centre in Breznica | 1,785 | The development of the main design for the construction of the community cultural centre in Breznica necessary to house local cultural activities. |
| 25. | Technical documentation / Main design development | Bujanovac | Development of the Main Design for the Construction of the Community Cultural Centre in Končulj | 1,785 | The development of the main design for the construction of the community cultural centre in Končulj necessary to house local cultural activities. |
| 26. | Construction works / Construction of the building for the Bujanovac Faculty | Bujanovac | Construction of the Subotica Faculty of Economics, Bujanovac Department Building | 767,345 | Construction of the new building for the Subotica Faculty of Economics, Bujanovac Department Facilitates high quality conditions for the education of over 400 currently enrolled students, half of which are Serbian, half Albanian. |
| 27. | Planning documentation / Detailed regulation plans | Bujanovac | Detailed Regulation Plan | 8,367 | Development of the detailed regulation plan for the commercial-business and manufacturing zone along the roads from Niš and along the road towards Bujanovac Spa will contribute to creating preconditions for improving the business environment and attracting investments into the municipality. |
| 28. | Planning documentation / Detailed regulation plans | Bujanovac | Detailed Regulation Plan | 6,633 | Formulation of the detailed regulation plans for commercial office buildings and manufacturing complexes along Gnjilanski road "Sector 6" will contribute to creating preconditions for improving the business environment and attracting investments into the municipality . |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|--|------------|--|--------------------|--|
| 29. | Construction works / Local infrastructure project | Crna Trava | Improving Energy Efficiency in the Municipality of Crna Trava | 100,000 | Reconstruction of the building of the Technical School "Milentije Popović" in Crna Trava will improve energy efficiency and create better living and working conditions for 185 students and 54 staff members. The project will also help raise public awareness about the importance of using renewable energy sources at the municipal level. |
| 30. | Technical documentation / Main design development | Doljevac | Development of the Main Design for the Reconstruction and Upgrading of the Preschool institution "Lane" in Doljevac | 6,350 | The development of the main design for the reconstruction and the reorganisation of the ground floor of Doljevac preschool institution "Lane". One part of the building will serve as a kindergarten and another as a vocational education department of the "Niš School of Economics". |
| 31. | Technical documentation / Main design development | Doljevac | Development of the Main Design for the Construction of Reservoir "Kočane" in Kočane Settlement in Doljevac Municipality | 9,642 | The development of the main design for the Construction of Reservoir "Kočane" will create preconditions to improve the local sources of healthy drinking water and would reduce current deficit in the supply of the potable drinking water |
| 32. | Construction works / Local infrastructure project | Doljevac | Construction of the Pukovac Market Centre - First Phase | 181,400 | The project will provide more income generating opportunities for vegetable and fruit growers, as well as for those who are looking to start agriculture-based businesses. This would create more income for local self-government as well, through tax and fee collection. |
| 33. | Technical documentation / Main design development | Gadžin Han | Development of the Main Design for the Improvement of Energy Efficiency of the Municipal Administration Building in Gadžin Han | 4,266 | The development of the main design for the improvement of energy efficiency of the Municipal Administration Building in Gadžin Han will create preconditions for the necessary construction works. |
| 34. | Planning documentation / Detailed regulation plans | Gadžin Han | Detailed Regulation Plan | 4,950 | Creating preconditions for new investments and local development in Gadžin Han through the preparation of detail regulation plan for the industrial zone "Zaplanjska Toponica". |
| 35. | Planning documentation / Detailed regulation plans | Gadžin Han | Detailed Regulation Plan | 7,650 | Creating preconditions for new investments and local development in Gadžin Han through the preparation of the detailed regulation plan for the industrial zone "South". |
| 36. | Technical documentation / Main design development | Ivanjica | Development of the Main Design for the Kindergarten in Crnojkevo | 5,667 | The development of the main design for the kindergarten in Crnojkevo which covers 20% of Ivanjica area and would contribute to providing accommodation to 115 children, which is 80 % of the total number of pre-school children in Ivanjica and should have positive impact on family preservation, upbringing and proper direction of youth at the earliest age. |
| 37. | Technical documentation / Main design development | Ivanjica | Development of the Main Design for Ivanjica Sports Hall | 9,450 | The development of the main design for the construction of Ivanjica Sports Hall. The sports facility is expected to stimulate youth, as a primary target group, to engage in sport activities. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|--|-------------|--|--------------------|--|
| 38. | Planning documentation / Detailed regulation plans | Ivanjica | Detailed Regulation Plan | 6,000 | Development of the detailed regulation plan for the tourist-recreational zone "Jakovića Polje" will contribute to creating preconditions for the development of tourism in the municipality. |
| 39. | Planning documentation / Detailed regulation plans | Ivanjica | Detailed Regulation Plan | 8,700 | Development of the detailed regulation plan for the business-production zone "Senjak" will contribute to creating preconditions for improving the business environment in the municipality. |
| 40. | Construction works / Local infrastructure project | Ivanjica | Reconstruction of the Branch of the Main Pipeline in the Town Area Lučka Reka – Javor | 99,998 | By replacing asbestos pipes with the new ones the project shall resolve the greatest water supply problem in Ivanjica and thus contribute to creation of conditions for quality life of the local population and for the economic growth and development of domestic and foreign investors. |
| 41. | Technical documentation / Main design development | Knjaževac | Development of the Main Design for the Construction of the Commercial Building in Knjaževac | 3,157 | The development of the main design for the construction of the Commercial Building in Knjaževac Municipality to house five-eight local craft and small business from Knjaževac with adequate space for doing business. Besides the income generated from the souvenir retail the building will be leased and the rent will contribute to municipal budget. |
| 42. | Technical documentation / Main design development | Knjaževac | Development of the Main Design for the Construction of the Campsite "Banjica" | 5,702 | The development of the main design for the construction of the campsite "Banjica" aims to increase the local tourism to the level of significant economic activity in the region. |
| 43. | Technical documentation / Main design development | Knjaževac | Development of the Main Design for the Construction of Sport Hall in Knjaževac | 9,805 | The development of the main design for the Construction of Sport Hall in Knjaževac will allow growth of competitive sports in the Municipality as currently 1,500 members in the 40 registered clubs within the local Sport Association do not have a facility to organise competitive sport events. |
| 44. | Planning documentation / Detailed regulation plans | Knjaževac | Detailed Regulation Plan | 12,270 | Development of the detailed regulation plan for the archeo-ethno park "Ravna" will contribute to creating preconditions for the further development of tourism in the municipality. |
| 45. | Technical documentation / Main design development | Kuršumljija | Development of the Main Design to Replace the Asbestos, Galvanised and Cast Iron Pipes in the Kuršumljija Municipality | 18,270 | The development of the main design for refurbishing the water supply infrastructure in Kuršumljija municipality to result in the reduction of losses in the network as well as continuous and stable water distribution to citizens. |
| 46. | Services to municipalities / Geographic information system (GIS) | Kuršumljija | GIS as a tool of integrated local economic and tourism development | 84,350 | The project predicts surveying and mapping underground communal infrastructure and is focused on improving tourism through the creation of thematic touristic maps and municipal services. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|--|-------------------------------|---|--------------------|--|
| 47. | Construction works / Local infrastructure project | Kuršumlija | Toward Environmentally Sustainable and Accountable Community through Application of Energy Efficiency Concepts - Reconstruction of the main building of the Primary School "Miloje Zakić" | 100,000 | The reconstruction of the main building of the Primary School "Miloje Zakić" will improve energy efficiency and working conditions for 600 pupils. The project is a part of the strategic municipal approach to increase energy efficiency in public facilities, which should create preconditions for the transformation of Kuršumlija into an energy sustainable municipality. |
| 48. | Planning documentation / Detailed regulation plans | Lebane | Detailed Regulation Plan | 12,915 | Development of the detailed regulation plan of the cultural – historical and touristic complex "Caričin Grad" will contribute to creating preconditions for the valorisation of cultural and historic potentials of the municipality. |
| 49. | Construction works / Local infrastructure project | Lebane | Completion of construction of the building for haemodialysis | 44,916 | The Municipal Haemodialysis facility is vital for 30 patients from Lebane, Medveđa and Bojnik, who need to be transported daily back and forth to Leskovac for the treatment. Two phases of the construction were completed and the Ministry of Health invested funds into some equipment. |
| 50. | Planning documentation / Detailed regulation plans | Leskovac | Detailed Regulation Plan | 15,000 | Improving conditions for infrastructure development by formulating the detailed regulation plan for the area of general regulation plan 16 "green zone" - east/section 4b. |
| 51. | Services to municipalities / Geographic information system (GIS) | Leskovac | Increasing attractiveness for investments through a functional GIS | 91,965 | The application aims to valorise the identity of the city and its potentials by mapping brownfield locations and rich industrial heritage. This approach is also in line with EU policies and strategies wherein priority is given to projects that support urban development. |
| 52. | Construction works / Local infrastructure project | Leskovac | Improvement of energy efficiency in Primary School "Trajko Stamenković" | 95,000 | Primary School "Trajko Stamenkovic" in Leskovac will improve its energy efficiency through energy restoration. Joinery will be replaced, façade restored and the lights will be converted into a low energy system. Working conditions in the school will improve for 846 pupils and 87 staff members, as well as the health and safety conditions. |
| 53. | Anti-erosion protection / Main design development | Leskovac Lebane Medveđa | Preparation of Main Designs for the Anti-Erosion Protection of the Jablanica River Watershed | 32,674 | The development of technical documentation will enable tendering for works on anti-erosion protection of river basins for the Jablanica River watershed. |
| 54. | Technical documentation / Main design development | Merošina | Development of the Main Design for the Reconstruction and Upgrade of the Centre for Social Welfare in Merošina | 3,754 | The development of the main design for the reconstruction and the necessary upgrade of the Centre for Social Welfare in Merošina. |
| 55. | Technical documentation / Main design development | Merošina | Development of the Main Design for Energy Efficiency Measures in the Primary School "Jastrebački Partizani", Oblačina | 7,519 | The development of the main design for energy efficiency measures in the Primary School "Jastrebački partizani" in Oblačina will plan for the heating and electrical installations, facade, insulation of floors and walls, reconstruction of the roof and carpentry and will improve the overall studying condition for the students. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|--|-----------------------|---|--------------------|---|
| 56. | Planning documentation / Detailed regulation plans | Merošina | Detailed Regulation Plan | 14,400 | Development of the detailed regulation plan for the tourist complex "Oblačinsko lake" will contribute to creating preconditions for the further development of tourism in the municipality. |
| 57. | Services to municipalities / Geographic information system (GIS) | Merošina Aleksinac | Introduction and development of GIS | 133,479 | The application focusses on creation of property inventory and brownfield and greenfield location mapping. A joint GIS for both municipalities is planned, which represents a good approach in using equipment for data provision in terms of sustainability and sharing resources between partner municipalities. |
| 58. | Technical documentation / Main design development | Novi Pazar | Development of the Main Design for the Construction of A Pumping Station and Suction – Pressure Line "Paričko Brdo" | 22,275 | The development of the main design for the construction of a pumping station and suction – pressure line "Paričko brdo" aimed to disburden the central water supply (by 65 l/s) and decrease losses, costs of maintenance and improved supply of drinking water to citizens of Novi Pazar. |
| 59. | Technical documentation / Main design development | Novi Pazar | Development of the Main Design for Sanitation of City Landfill "Golo brdo" | 24,870 | The development of the main design for rehabilitation of Golo brdo Landfill will enable creation of the landfill compliant with the European Union (EU) standards which will in turn contribute to the conservation of natural and agricultural resources and improved quality of life of all citizens in the region. |
| 60. | Planning documentation / Detailed regulation plans | Novi Pazar | Detailed Regulation Plan | 15,000 | Development of the detailed regulation plan for the waste water treatment plant in Novi Pazar will contribute to creating preconditions for the improvement of the quality of water being supplied to the citizens. |
| 61. | Services to municipalities / Geographic information system (GIS) | Novi Pazar | The establishment of GIS | 99,700 | The application is twofold: It aims to utilise GIS in cultural heritage valorisation, which will serve tourism development, as well as to employ existing equipment in mapping natural resources for investment attraction. |
| 62. | Anti-erosion protection | Novi Pazar | Anti-Erosion Works on Jusuf Potok | 26,773 | Anti-erosion works on Jusuf potok as part of the anti-erosion protection of Raška River watercourse. |
| 63. | Anti-erosion protection | Novi Pazar | Conducting Forestation Works Around the Raška River | 89,254 | Conducting forestation works around the Raška River, as part of the anti-erosion protection of Raška River watercourse. |
| 64. | Anti-erosion protection | Novi Pazar | Conducting Anti-Erosion Works on the Protection of the Basins of Raška river | 96,429 | Conducting anti-erosion works on the protection of the basins of Raška river, as part of the anti-erosion protection of Raška River watercourse. |
| 65. | Technical documentation / Main design development | Preševo | Development of the Main Design for Improvement of Energy Efficiency in Primary School "Zenel Ajdini" in the Village Rance - Preševo | 1,350 | The development of the main design will increase the quality of life and work of the students and the school employees. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|--|--|--|--------------------|--|
| 66. | Technical documentation / Main design development | Preševo | Development of the Main Design for Improvement of Energy Efficiency in the Primary School "Dituria" in the Village Crnotince - Preševo | 1,350 | The development of the main design for the improvement of energy efficiency in the primary school "Dituria" in the village of Crnotince, aimed to increase the quality of life of the students. |
| 67. | Services to municipalities / Geographic information system (GIS) | Preševo | Digitalisation of the existing Geospatial Data and GIS Development with the Purpose of Local Economic Development | 60,690 | The project is mainly focussed on the economic development and presentation of industrial zones which owe their high potential to a favourable geo-strategic position. |
| 68. | Anti-erosion protection / Main design development | Preševo Vranje Leskovac Vladičin Han Bujanovac | Preparation of General Designs for Južna Morava River Watercourse from Grdelica to Preševo, with Moravica and Binačka Morava Rivers | 118,700 | Creating conditions for further development of technical documentation for the protection of Južna Morava watercourse which will contribute to the protection of citizens and their property from the effects of flooding. |
| 69. | Technical documentation / Main design development | Priboj | Development of the Main Design Reconstruction of Public Lighting | 7,200 | The development of the main design for the reconstruction of the entire lighting system in throughout the municipality and improve the overall safety of the citizens. The new, LED based, lighting system will have a low energy consumption and a long lifespan. |
| 70. | Technical documentation / Main design development | Priboj | Development of the Main Design for the Reconstruction of Electro-Mechanical Sector of Water Treatment Plant | 6,662 | The development of the main design serves as a precondition for preserving the health and safety of people and for the overall economic development of the municipality. |
| 71. | Construction works / Local infrastructure project | Priboj | Reconstruction of Administrative Building in Industrial Park | 199,980 | Replacement of the roof cladding and external woodwork of the Administrative Building will improve the working conditions in the Free Zone, thus contributing to creation of more favourable business environment for the economic growth, and consequent increase in employment and better living standard of the 27,000 inhabitants of Priboj. These activities complement to significant funding of the Government of Serbia in the Industrial Park, which is well equipped with infrastructure and has potential for both brownfield and greenfield investments. |
| 72. | Technical documentation / Main design development | Prijepolje | Development of the Main Design for Improvement of Energy Efficiency in Prijepolje Health Centre | 9,516 | The development of the main design will improve the overall quality of provided service at the Centre. |
| 73. | Planning documentation / Detailed regulation plans | Prijepolje | Detailed Regulation Plan | 13,200 | Development of the detailed regulation plan for Sehovića Polje. |
| 74. | Construction works / Local infrastructure project | Prijepolje | Rehabilitation of the Sports Hall with the Supporting Equipment | 91,701 | After the reconstruction over 1,000 elementary and high school students, more than 60 teachers and approximately 400 kindergarten children will be able to develop their sport affinities and skills in favourable conditions, with improved energy efficiency and with necessary sport equipment. Furthermore, the security of the students will be improved, as they will not walk across the highway, while the other classes won't have to be shortened, due to children travel between facilities for physical education. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|--|-------------------------------|--|--------------------|---|
| 75. | Services to municipalities / Geographic information system (GIS) | Prokuplje | Introduction of the GIS | 79,720 | The project primarily focuses on surveying underground lines and planning documentation. |
| 76. | Anti-erosion protection | Prokuplje Bojnik Lebane | Works on the Anti-Erosion Protection of Pusta Reka | 167,539 | Technical, bio-technical and biological works for the anti-erosion protection of Pusta Reka watercourse with the aim of protecting citizens and their property from the effects of flooding. |
| 77. | Technical documentation / Main design development | Raška | Development of the Main Design for the Construction of the Building for Social Housing | 4,454 | The development of the main design for construction of a social housing building to permanently accommodate 12 socially vulnerable families in line with the previously established set of criteria and the current legislation. |
| 78. | Technical documentation / Main design development | Raška | Development of the Main Design for the Construction of Bridge Over the Ibar River | 11,967 | The development of the main design for the Construction of Bridge over the Ibar River envisages the Waste Water Treatment Plant in the Rvati settlement, on the right bank of the Ibar River. |
| 79. | Construction works / Local infrastructure project | Raška | Development of the Main Design for Heating System At the Raška Sports Hall | 5,481 | The development of the main design envisages the instalment of an air conditioning system in the Sports Hall, so that the hall can be used 365 days a year. This would enable the Tourism Sports Organisation of Raška to introduce new and promote existing recreational activities to Raška population. |
| 80. | Planning documentation / Detailed regulation plans | Raška | Detailed Regulation Plan | 8,346 | Formulation of the detailed regulation plan for the business zone "Baljevac". |
| 81. | Planning documentation / Detailed regulation plans | Raška | Detailed Regulation Plan | 612 | Formulation of the detailed regulation plan for the business zone "South 2 Supnje" will contribute to creating preconditions for the improvement of the business environment and attracting investments into the municipality. |
| 82. | Planning documentation / Detailed regulation plans | Raška | Detailed Regulation Plan | 5,916 | Formulation of the detailed regulation plan for the business zone "North Vlasovo" will contribute to creating preconditions for the improvement of the business environment and attracting investments into the municipality. |
| 83. | Services to municipalities / Geographic information system (GIS) | Raška | "Raška ReGIStration" – Improvement of Urban Planning Procedures and Local Economic Development Through the use of GIS Technologies | 99,487 | The project is mainly focussed on the promotion of significant and well known tourism potentials of Kopaonik National Park. The project will improve visibility and municipal services that support investments. |
| 84. | Planning documentation / Detailed regulation plans | Sjenica | Detailed Regulation Plan | 6,510 | Development of the detailed regulation plan I for the block 1.2 |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|-----|--|-----------|--|--------------------|---|
| 85. | Planning documentation / Detailed regulation plans | Sjenica | Detailed Regulation Plan | 8,330 | Development of the detailed regulation plan II for blocks 1.5 and 1.6 |
| 86. | Services to municipalities / Geographic information system (GIS) | Sjenica | Establishing Municipal GIS with the Cadastre of Underground Lines | 99,900 | The application envisions mapping weak points in underground lines, but also largely focusses on strengthening the capacities of local municipal services and gathering data using local capacities. This approach empowers local governments to lead and be responsible for project results. |
| 87. | Construction works / Local infrastructure project | Sjenica | Replacement of the Final Part of the Asbestos-Cement Pipeline | 99,974 | Reconstructing the final part of the water-supply system of Sjenica with new pipes, will complete the donor supported interventions started in 2010, and will create conditions for connection of 620 households, 40 private enterprises and 30 agricultural estates to the new system. |
| 88. | Technical documentation / Main design development | Surdulica | Development of the Main Design for the Sewerage Systems in the Village Jelašnica in Surdulica Municipality | 7,600 | The development of the main design will create conditions for the improvement of agriculture and diversification of activities in the rural area and will provide better quality of life for the residents. |
| 89. | Technical documentation / Main design development | Surdulica | Development of the Main Design for Sewerage Systems in the Rural Areas of Surdulica Municipality | 15,840 | The development of the main design and technical control for the construction of the sewerage system will allow for the improvement of agriculture and diversification of activities in rural areas. |
| 90. | Planning documentation / Detailed regulation plans | Surdulica | Detailed Regulation Plan | 12,000 | Detailed regulation plan for the wastewater collection, drainage and treatment systems in the area of Vlasina. |
| 91. | Planning documentation / Detailed regulation plans | Surdulica | Detailed Regulation Plan | 3,000 | Detailed regulation plan "Stari Rid". |
| 92. | Services to municipalities / Geographic information system (GIS) | Surdulica | Establishing GIS in the Municipality of Surdulica | 88,700 | The project aims at the economic development through the promotion of a highly recognised tourism potential - Vlasina Lake. |
| 93. | Construction works / Local infrastructure project | Surdulica | Reconstruction of the School in Suvojnica Village | 100,000 | This village school in Surdulica, which shares its premises with the kindergarten, is essential for encouraging local population to remain and continue living in the village. This emphasises the relevance of the intervention, which is further strengthened with energy efficiency aspects of the project, as well as good governance, as the residents will have the opportunity to participate in managing the facility as well as to use the facility for social activities. |
| 94. | Technical documentation / Main design development | Svrljig | Development of the Main Design for Improvement of Energy Efficiency of the Primary School "Dobriča Stambolić" in Svrljig | 4,918 | The development of the main design will allow for the improvement in the school's energy efficiency. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|------|--|---------------------------------------|---|--------------------|---|
| 95. | Planning documentation / Detailed regulation plans | Svrljig | Detailed Regulation Plan | 15,000 | Creating a favourable environment for the development of infrastructure through the detailed regulation plan for the manufacturing complex in the urban area "B" in Svrljig. |
| 96. | Main design development / Anti-erosion protection | Trgovište | Preparation of Detailed Designs for the Anti-Erosion Protection of the Pčinja River Watershed | 24,506 | Development of technical documentation that will enable tendering for works on anti-erosion protection of river basins for Pčinja River watershed with the aim of protecting citizens and their property from the effects of flooding. |
| 97. | Technical documentation / Main design development | Tutin | Development of the Main Design for the Construction of the School in Mala Ravan | 22,722 | The development of the main design would contribute to the construction of necessary social infrastructure in Tutin - one of the youngest municipalities in Serbia (children aged 6-14 make over 17% of total population) which will, in turn, improve the quality of educational services in the area. |
| 98. | Planning documentation / Detailed regulation plans | Tutin | Detailed Regulation Plan | 14,895 | Development of the detailed regulation of Pope. |
| 99. | Construction works / Local infrastructure project | Tutin | Constructing of Primary School Building in Zapadni Mojstir | 83,173 | Construction of a primary school building in Zapadni Mojstir, including the school yard and playground, will create conditions for better performance and the implementation of higher education standards for 48 children from the communities of Zapadni Mojstir, Istočni Mojstir, Batrage and Čulije. |
| 100. | Planning documentation / Detailed regulation plans | Vlasotince | Detailed Regulation Plan | 14,850 | Detailed regulation plan for the industrial zone Vlasotince. |
| 101. | Construction works / Local infrastructure project | Vlasotince | Construction of the Dog Shelter | 92,000 | The Dog Shelter will be a bi-municipal asset (Vlasotince and Bojnik), and represents a rare case of inter-municipal cooperation. Animal control in said municipalities is a serious issue, which results in significant costs for both LSGs for paying damages to citizens that got bitten by stray dogs. The project has potential for a serious good governance intervention (managing the facility, ownership aspects, costs and risk division etc. animal rights etc.). |
| 102. | Main design development / Anti-erosion protection | Vlasotince Babušnica Crna Trava | Preparation of Detailed Designs for the Anti-Erosion Protection of the Vlasina River Watershed | 36,759 | Development of technical documentation that will enable tendering for works on anti-erosion protection of river basins for Vlasina River watershed with the ultimate goal of protecting citizens and their property from the effects of flooding. |
| 103. | Technical documentation / Main design development | Vranje | Development of the Main Design for Reconstruction and Extension of Primary School "Branislav Nušić" in Rataje | 5,185 | The development of the main design for reconstruction of the existing, ten classroom, school object in Rataje which will improve the quality of educational services in the area. |

PROJECT LIST

| No. | TYPE OF PROJECT | LSG | PROJECT TITLE | CONTRIBUTION (EUR) | PROJECT DESCRIPTION |
|------|--|--|---|--------------------|---|
| 104. | Technical documentation / Main design development | Vranje | Development of the Main Design for Construction of New Kindergarten in Vranje | 9,540 | The development of the main design for construction of the preschool institution in Vranje "Naše dete" to supplement the existing, but scarce, preschool capacities in the City. |
| 105. | Planning documentation / Detailed regulation plans | Vranje | Detailed Regulation Plan | 15,000 | Development of the detailed regulation plan for the business manufacturing zone Bunuševac 3 in Vranje will contribute to creating preconditions for improving the business environment and attracting investments into the municipality. |
| 106. | Services to municipalities / Geographic information system (GIS) | Vranje | GIS in the Function of Sustainable Development | 91,000 | The project focusses on the promotion of industrial zones through a holistic approach. The project systematically and effectively connects and merges various activities related to the same topic. Part of the planning documentation for industrial areas was funded by EU PROGRES with one segment being currently funded by European PROGRES. |
| 107. | Construction works / Local infrastructure project | Vranje | Infrastructure Improvement of the Vranje Free Zone Within the Detailed Regulation Plan of the Bunuševac 2 Area | 191,392 | The Programme in its both iterations supported the development of the Zone by financing important planning documentation, making this intervention a logical step in the same direction as it further develops the Zone's infrastructure assets. |
| 108. | Technical documentation / Main design development | Žitorađa | Development of the Main Design for the Improvement of Energy Efficiency in Primary School "Toplički Heroji" in the Village Pejkovac | 1,039 | The development of the main design is aimed at increasing the quality of life of the students. |
| 109. | Technical documentation / Main design development | Žitorađa | Preparation of main design for the improvement of energy efficiency in primary school "Toplički Heroji" in Žitorađa | 1,289 | The preparation of main design for the improvement of energy efficiency in primary school "Toplički Heroji" in Žitorađa. |
| 110. | Services to municipalities / Geographic information system (GIS) | All 34 LSGs | Provision of FIDIC conditions of works contracts training | 309,098 | Provision of trainings for use of FIDIC contracts for Works to all Programme LSGs and on job trainings for LSGs that will receive CFCU Grants. |
| 111. | Golija development | Ivanjica Raška Sjenica Novi Pazar Kraljevo | Detailed Regulation Plan for Infrastructure Corridors | 220,000 | The project is to be developed in partnership with the Ministry of Trade, Tourism and Telecommunications and LSGs, and implies the development of detailed regulation plans for infrastructure corridors as well as activities aimed at improving knowledge and raising awareness of destination management. |
| 112. | Golija development | Ivanjica Raška Sjenica Novi Pazar Kraljevo | Feasibility study and planning documentation for Golija | 60,000 | The project is to be developed in partnership with the Ministry of Trade, Tourism and Telecommunications and LSGs, and implies the preparation of the management model for Golija, as well as the activities aimed at improving knowledge and raising awareness of destination management. |
