If the RFP has been advertised publicly, the results of any clarification exercise (including an explanation of the query but without identifying the source of inquiry) will be posted on the UNOPS website and UNGM.

5 Amendments to solicitation documents

At any time prior to the deadline for submission of proposals, UNOPS may, for any reason, whether at its own initiative or in response to a clarification requested by a prospective offeror, modify the solicitation documents by amendment. All prospective offerors that have received the solicitation documents will be notified in writing of all amendments to the Solicitation documents. For open competitions, all amendments will also be posted on the UNOPS website and UNGM in the tender notice.

8 Late proposals

Any proposals received by UNOPS after the deadline for submission of proposals prescribed in this document, may be rejected.

9 Clarification of proposals

To assist in the examination, evaluation and comparison of proposals, UNOPS may, at its discretion, ask the offeror for a clarification of its proposal. The request for clarification and the response shall be in writing and no change in the price or substance of the proposal shall be sought, offered or permitted. UNOPS will review minor informalities, errors, clerical mistakes, apparent errors in price and missing documents in accordance with the UNOPS Procurement Manual 8.9 Discussions with vendors.

10 Proposal currencies

All prices shall be quoted in RSD (Republic of Serbia Dinar) for national and EUR/USD for international companies.

Regardless of the currency of proposals received, the contract will always be issued and subsequent payments will be made in the mandatory bidding currency above.

11 Mandatory/pre-qualification criteria

- 11.1. The mandatory requirements/pre-qualification criteria have been designed to assure that, to the degree possible in the initial phase of the RFP procurement process, only those offerors with sufficient experience, the financial strength and stability, the demonstrable technical knowledge, the evident ability to satisfy UNOPS requirements and superior customer references for supplying the services envisioned in this RFP will qualify for further consideration. UNOPS reserves the right to verify any information contained in offeror's response or to request additional information after the proposal is received. Incomplete or inadequate responses, lack of response or misrepresentation in responding to any questions will affect your evaluation.
- 11.2. Offerors will receive a pass/fail rating in the mandatory requirements/pre-qualification criteria section. In order to be considered for Phase I, offerors must meet all the mandatory requirements/pre-qualification criteria described in this RFP.
- 11.3. The UNOPS General Conditions of Contract for services/goods and the UNOPS contract, as part of this RFP, contain mandatory terms and conditions for offerors' review and acceptance. UNOPS will not entertain any proposed changes to the Non-Negotiable Articles. Offerors are expected to confirm in writing their acceptance of these conditions by completing the mandatory requirements/pre-qualification criteria as provided in Annex B. There will be no negotiation of terms and conditions and contract terms at contract award.

12 Evaluation of technical and financial proposal

- 12.1. Phase I - Technical proposal (number of points)
 - 12.1.1. Only offerors meeting the mandatory criteria will advance to the technical evaluation in which a maximum possible 70 points may be determined. An evaluation committee appointed by UNOPS will carry out the technical evaluation applying the evaluation

criteria and point's ratings as listed below. In order to advance beyond Phase I of the detailed evaluation process to Phase II (financial evaluation) a proposal must have achieved a minimum cumulative average score of 49 points.

	Expertise of Firm / Organization/Consortium submitting Proposal	20 points
	Proposed Approach, Methodology and Work Plan - Understanding of the background - Methodology - Work Plan	15 points
	Personnel - Combined qualifications of the team - Proposed team leader and team members qualifications	35 points
	TOTAL	70 points

12.2. PHASE II - FINANCIAL PROPOSAL - 30 points

12.2.1. Financial proposals will be evaluated following completion of the technical evaluation. The offeror with the lowest evaluated cost will be awarded 30 points. Financial proposals from other offerors will receive pro-rated points based on the relationship of the offeror's prices to that of the lowest evaluated cost.

12.2.1.1. Formula for computing points:

$$\text{Points} = (\text{A/B}) \text{ Financial Points}$$

Example: Offeror A's price is the lowest at \$10.00. Offeror A receives 30 points
Offeror B's price is \$20.00. Offeror B receives $(\$10.00/\$20.00) \times 30 \text{ points} = 15 \text{ points}$

13 Preparation of proposal

- 13.1. The offeror is expected to examine all terms and instructions included in the solicitation documents. Failure to provide all requested information will be at offeror's own risk and may result in rejection of offeror's proposal.
- 13.2. The offeror's proposal must be organized to follow the format of this RFP. Each offeror must respond to every stated request or requirement and indicate that offeror understands and confirms acceptance of UNOPS stated requirements. The offeror should identify any substantive assumption made in preparing its proposal. The deferral of a response to a question or issue to the contract negotiation stage is not acceptable. Any item not specifically addressed in the offeror's proposal will be deemed as accepted by the offeror. The terms "offeror" and "contractor" refer to those companies that submit a proposal pursuant to this RFP.
- 13.3. Where the offeror is presented with a requirement or asked to use a specific approach, the offeror must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide the same will be viewed as non-responsive.
- 13.4. The terms of reference/statement of work in this document provides a general overview of the current operation. If the offeror wishes to propose alternatives or equivalents, the offeror must demonstrate that any such proposed change is equivalent or superior to UNOPS established requirements. Acceptance of such changes is at the sole discretion of UNOPS.

13.5. Proposals must offer services/goods for the total requirement, unless otherwise permitted in the solicitation document. Proposals offering only part of the services/goods may be rejected unless permitted otherwise in the solicitation document.

13.6. Offeror's proposal shall include all of the following labelled annexes:

RFP submission (on or before proposal due date):
