

DEVELOPMENT OF TECHNICAL DOCUMENTATION FOR MUNICIPAL INFRASTRUCTURAL PROJECTS

PREPARATORY ACTIVITIES NOVEMBER 2014 - JANUARY 2015

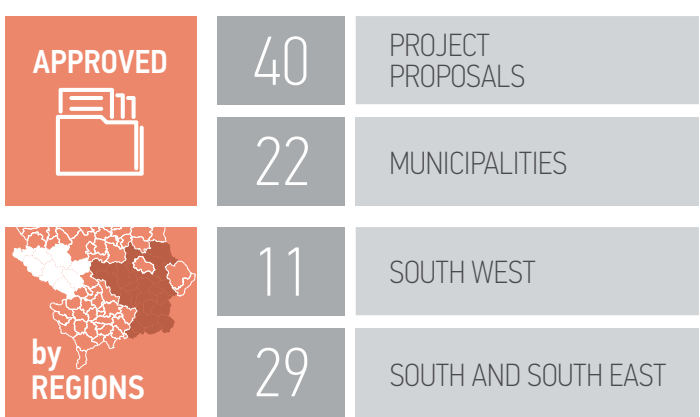

EVALUATION PROCESS JANUARY 2015

THE CALL WAS OPEN 30 NOVEMBER - 16 DECEMBER 2014

RESULTS

FOCUS ON PRIORITY AREA

TECHNICAL DOCUMENTATION FOR SOCIAL LOCAL INFRASTRUCTURAL PROJECTS (24):	TECHNICAL DOCUMENTATION FOR LOCAL ECONOMIC INFRASTRUCTURAL PROJECTS (16):
Educational institutions.....12	Infrastructure for improving business environment.....13
Health institutions.....1	Infrastructure for enabling business start-ups.....2
Social welfare institutions.....4	Infrastructure contributing to overall business environment.....1
Cultural institutions.....3	
Sports facilities.....4	

EUROPEAN PROGRES CONTRIBUTION AMOUNT EUR 553,345

Through support for the development of technical documentation European PROGRES helps create preconditions for improving municipal infrastructure to enable sustainable development of underdeveloped areas in Serbia by creating a business friendly environment and developing infrastructure.

No.	LOCAL SELF-GOVERNMENT	PROJECT TITLE	CONTRIBUTION	PROJECT DESCRIPTION
1.	BABUŠNICA	Development of Main Design for reconstruction and renovation of the green market with access roads	European PROGRES EUR 12,087	The Design for reconstruction and adaptation of the green market and the necessary access roads creates conditions to improve economic potentials of the local population, who are primarily working in agriculture and dairy production.
2.	BELA PALANKA	Development of Main Design for reconstruction of Primary School Ljupče Španac in Bela Palanka	European PROGRES EUR 4,455	The Design for reconstruction of Primary School Ljupče Španac in Bela Palanka creates conditions to improve the building's energy efficiency.
3.	BELA PALANKA	Development of Main Design for extension of rainwater drainage in Bela Palanka	European PROGRES EUR 15,840	The project to widen and extend the rainwater drainage system in Bela Palanka will help reduce damage caused by hard rain and flooding.
4.	BELA PALANKA	Development of Main Design for reconstructing public lighting in Bela Palanka	European PROGRES EUR 16,553	The Design for the reconstruction of public lighting in Bela Palanka municipality creates preconditions to secure funds for the reconstruction of street municipal infrastructure.
5.	BLACE	Development of Main Design to extend and reconstruct the social welfare institution building in Trbunje	European PROGRES EUR 25,560	The project for extension and reconstruction of the social welfare institution building in Trbunje to improve living conditions of citizens living there as well as working conditions for the employees.
6.	BOJNIK	Development of Main Design for the Entrepreneurship Development Centre building in Bojnik	European PROGRES EUR 13,500	The Design for the Entrepreneurship Development Centre building in Bojnik will directly help enhance economic development of the municipality.
7.	BOJNIK	Development of Main Design for social housing building in Bojnik	European PROGRES EUR 18,000	The Design for the social housing building should improve living conditions of the most vulnerable inhabitants of the Bojnik municipality.
8.	BOSILEGRAD	Development of Main Design for rainwater drainage of the central area of Bosilegrad municipality	European PROGRES EUR 18,000	The Design for rainwater drainage in the central area of Bosilegrad municipality will direct all rainwater, which has until now been draining without control and accumulating waste, to natural flows of the river Dragovištica and Dobri Dol stream, the basin of which has been regulated in this area.
9.	BUJANOVAC	Development of Main Design for Community Muhovac Cultural Centre	European PROGRES EUR 7,020	Design for the Cultural Centre in Community Muhovac, which will host cultural activities.
10.	BUJANOVAC	Development of Main Design for building the Cultural Centre in Community Breznica	European PROGRES EUR 7,020	Design to build a Cultural Centre in Community Breznica, which will host cultural activities.
11.	BUJANOVAC	Development of Main Design to build the Cultural Centre in Community Končulj	European PROGRES EUR 7,020	Design to build the Cultural Centre in Community Končulj, which will host cultural activities.

No.	LOCAL SELF-GOVERNMENT	PROJECT TITLE	CONTRIBUTION	PROJECT DESCRIPTION
12.	DOLJEVAC	Development of Main Design for reconstruction and improvement of kindergarten Lane in Doljevac	European PROGRES EUR 7,362	Design for reconstruction and reorganisation of the ground floor of kindergarten Lane in Doljevac. One part of the building will host the kindergarten and the other a skills education section of the School of Economy from Niš.
13.	DOLJEVAC	Development of Main Design for Kočane cistern in Kočane settlement, Doljevac municipality	European PROGRES EUR 10,250	Design to build water cistern Kočane will create preconditions for improvement of local clean drinking water sources and reduce current lack of drinking water supplies.
14.	GADŽIN HAN	Development of Main Design to improve energy efficiency of the municipal administration building in Gadžin Han	European PROGRES EUR 11,390	The Design to improve energy efficiency of the municipal administration building in Gadžin Han will create preconditions for the necessary construction works.
15.	IVANJICA	Development of Main Design for kindergarten in Crnoljevo	European PROGRES EUR 16,065	The development of the Main Design for kindergarten in Crnoljevo, covering 20% of Ivanjica territory, will contribute to enrolling 115 children, or 80% of all pre-school children in Ivanjica, and will have a positive impact on preserving the family, education and giving proper direction to youth from the youngest ages.
16.	IVANJICA	Development of Main Design for the sports hall in Ivanjica	European PROGRES EUR 18,900	Development of the Main Design for the sports hall in Ivanjica. It is expected that this sports facility will encourage youth, representing the priority target group, to engage in sports.
17.	KNJAŽEVAC	Development of Main Design for commercial building in Knjaževac	European PROGRES EUR 4,152	The development of the main design for commercial building in Knjaževac, which will host between five and eight local crafts shops and small businesses, will provide a suitable business space. In addition to income from souvenirs, the building space will be leased, and the lease will add to the municipal budget.
18.	KNJAŽEVAC	Development of Main Design for Banjica picnic area	European PROGRES EUR 13,080	Development of the Main Design for building the Banjica picnic area aims to increase local tourism to a level of significant economic activity in the region.
19.	KNJAŽEVAC	Development of Main Design for the sports hall in Knjaževac	European PROGRES EUR 27,703	The development of the Main Design to build the sports hall in Knjaževac, which will enable the development of sports contests in the municipality, because currently 1,500 members from 40 registered clubs within the local sports association do not have adequate space for sports contests.
20.	KURŠUMLIJA	Development of Main Design to replace asbestos, galvanized cast pipes in Kuršumlija municipality	European PROGRES EUR 20,300	The development of the Main Design for the reconstruction of water supply infrastructure in Kuršumlija municipality should result in reduced grid loss, as well as continuous and stable distribution of water to citizens.
21.	MEROŠINA	Development of Main Design for reconstruction and extension of the Centre for Social Work in Merošina	European PROGRES EUR 6,599	Development of the Main Design for reconstruction and necessary extension of the Centre for Social Work in Merošina.

No.	LOCAL SELF-GOVERNMENT	PROJECT TITLE	CONTRIBUTION	PROJECT DESCRIPTION
22.	MEROŠINA	Development of Main Design for introducing energy efficiency measures in Primary School Jastrebački Partizani in Oblačina, Merošina municipality	European PROGRES EUR 12,917	The Main Design for introducing energy efficiency measures in Primary School Jastrebački Partizani in Oblačina will include electrical and heating installations, façade, floor and wall insulation, reconstruction of roof, doors and windows, in order to improve overall learning environment.
23.	NOVI PAZAR	Development of Main Design for building the pumping station and intake and pushout pipeline Paričko Brdo	European PROGRES EUR 22,725	The development of the Main Design for the pumping station and intake and pushout pipeline Paričko Brdo aims to relieve pressure from the central water supply system (by 65 l/s) and reduce losses and maintenance costs, as well as to improve drinking water supply for the population of Novi Pazar.
24.	NOVI PAZAR	Development of Main Design for rehabilitation of the town landfill Golo Brdo	European PROGRES EUR 27,000	The development of the Main Design for the rehabilitation of Golo Brdo landfill will help create a landfill meeting EU standards, which will in turn help protect natural and agricultural resources and improve the lives of all the people living in the region.
25.	PREŠEVO	Development of Main Design for improving energy efficiency in Primary School Zenel Ajdini in the village Raince	European PROGRES EUR 1,350	The development of the Main Design to improve energy efficiency in Primary School Zenel Ajdini in the village Raince aims to improve the quality of life of school students.
26.	PREŠEVO	Development of Main Design for improving energy efficiency in Primary School Dituria in the village Crnotince	European PROGRES EUR 1,350	The development of the Main Design for improving energy efficiency in Primary School Dituria in the village Crnotince aims to improve the quality of life of school students.
27.	PRIBOJ	Development of Main Design for public lighting reconstruction	European PROGRES EUR 7,200	Development of Main Design for reconstruction of the entire lighting system throughout the municipality and improvement of citizen security. The new LED-based lighting system will have low energy consumption and long life span.
28.	PRIBOJ	Development of Main Design for the reconstruction of electrical and machine part of the Priboj section of water treatment plant	European PROGRES EUR 26,910	The development of the Main Design for the reconstruction of electrical and machine part of the Priboj section of water treatment plant is a requirement for preserving people's health and safety and overall municipal economic development.
29.	PRIJEPOLJE	Development of Main Design for improving energy efficiency of the Health Centre in Prijepolje	European PROGRES EUR 11,347	The development of the Main Design for improving energy efficiency of the Health Centre in Prijepolje will help improve the overall quality of services provided.
30.	RAŠKA	Development of Main Design for the social housing building	European PROGRES EUR 6,120	The development of the Main Design for the social housing building where 12 socially vulnerable families will be provided with permanent accommodation in accordance with a pre-determined set of criteria and current legislation.
31.	RAŠKA	Development of Main Design for bridge across the river Ibar	European PROGRES EUR 14,400	Development of the Main Design for bridge across the river Ibar also includes building a waste water treatment plant in the Rvati settlement on the right bank of Ibar.

No.	LOCAL SELF-GOVERNMENT	PROJECT TITLE	CONTRIBUTION	PROJECT DESCRIPTION
32.	RAŠKA	Development of Main Design for sports hall heating system in Raška	European PROGRES EUR 14,850	The Main Design for the sports hall heating system in Raška includes the installation of air conditioning system in the sports hall, which can be used 365 days a year, which will enable the Tourism and Sports Organisation in Raška to initiate new activities and promote recreational activities among the people of Raška.
33.
