Section III: Schedule of Requirements - Terms of Reference

For Provision of consultancy services and certification for HALAL certificate of three enterprises from Southwest Serbia

1. The Background

European PROGRES is a multi-donor Programme, financed by the European Union (EU), the Government of Switzerland and the Government of Serbia, designed to support sustainable development in the South East and South West Serbia. The Programme has been conceptualised jointly with the European Integration Office of the Government of the Republic of Serbia (SEIO), whose responsibility is to monitor implementation and provide assistance and facilitation. The United Nations Office for Project Services (UNOPS) has been granted with an initial budget of 17.46 million Euros and has the overall responsibility for the Programme implementation.

Through a multi-sector approach this Programme will contribute to sustainable development of underdeveloped areas and creation of more favourable environment for infrastructure and business growth by strengthening local governance, improving vertical coordination, planning and management capacities, improving business environment and development, as well as enhancing implementation of social inclusion and employment policies.

The Programme works towards achieving four main results, while good governance principles are interwoven as a crosscutting aspect of the entire intervention:

1. Strengthened local governance, planning and management capacities through introduction of new, or improvement/elimination of existing procedures and processes in line with the principles of good governance
2. Increased competitiveness of local economy through improved business environment and management/organisational capacities of small and medium enterprises/agricultural cooperatives
3. Improved access to employment, offering equal opportunities to both men and women, and social inclusion of the most vulnerable and marginalised groups through development and implementation of local policies resulting in reduced migration from South East and South West Serbia
4. Effects of Serbia's European accession communicated to general public.

The final beneficiaries, but also the key stakeholders and financial contributors of this Programme are 34 local governments from the third and fourth group of development level, which have the responsibility of taking ownership of activities implemented in their territory:

- Novi Pazar, Raška and Tutin in the Raška District
- Nova Varoš, Prijboj, Prijepolje, Sjenica in the Zlatibor District
- Ivanjica in the Moravica District
- Prokuplje, Blace, Žitorađa, Kuršumlija in the Toplica District
- Leskovac, Bojnik, Vlasotince, Lebane, Medveđa and Crna Trava in the Jablanica District
- Vranje, Bosilegrad, Bujanovac, Vladičin Han, Preševo, Surdulica and Trgovište in the Pčinja District
- Brus in the Rasina District
- Aleksinac, Gadžin Han, Doljevac, Merošina and Svrlijig in the Nišava District
- Babušnica, Bela Palanka in the Pirot District
- Knjaževac in the Zaječar District.

Other beneficiaries include institutions founded by LSGs and public utility companies, civil society organisations (CSO) and media in the participating LSGs. It is the inhabitants of the South East and South West Serbia who will feel the biggest benefits of the Programme.

2. Introduction to the Intervention

Standards contribute to the overall quality and safety of a product or service. They assure compatibility, reduce unnecessary variety, increase the cost-effectiveness of processes and procedures and remove the

barriers to trade. Standards also help to protect the health of human beings, the general environment, and they create transparency in technical and technological issues by offering a common terminology.

The importance of standardisation is confirmed by recent studies linking growth in the stock of standards with productivity growth in the EU and at the National level, it has been confirmed by the Strategy for Development of small and medium size, Entrepreneurship and Competitiveness. The Strategy underlines importance of encouraging investments in new technologies, processes and services, as well as investments in the development of products with higher added value, which meet European and international standards, with the aim of strengthening the competitive position.

According to data from the Government of Serbia Republic Statistic Office, participation of Small and Medium Sized Enterprises (SMEs) from the Programme area in the total annual profit of the SMEs in Serbia is very low, the SMEs are primarily micro enterprises and the export share from the Programme area is 2.5% on average. An average of three to 18 SMEs per 1,000 inhabitants indicates that the Programme LSGs are far from the EU standard of 40 SMEs per 1,000 inhabitants.

The lack of production standards is an impediment to value chain establishment and increased export. The Baseline Competitiveness Study developed under the EU PROGRES Programme notes small number of SMEs holding international standards, primarily ISO 14001 even though food safety standards, ISO 22000 and HACCP are mandatory for any export-oriented company.

In September – December 2015 period, European PROGRES conducted a Call for Proposals for Provision of Support for Introduction of International Quality or Food Safety Standards² inviting eligible entities to apply for support.

As a result, the Programme's support includes introduction and certification of three enterprises for HALAL standards from Southwest Serbia. Basic information on a beneficiaries is presented in the below table:

Beneficiary	Location	Type of business	No. of employees
Hadzilbrahimovic SZTR	Novi Pazar	Bakery	10
STUR Lav Turkovic Nuriya PR	Sjenica	Dairy	17
Doo Polet	Novi Pazar	Bakery	63

3. Objectives of the Intervention

Overall objective: Increased competitiveness of local economy through improved management/ organisational capacities of SMEs.

Specific Objective: Create potentials for business growth and enhanced quality of products and services, through HALAL certification of three selected SMEs.

4. Approach to the Intervention

The European PROGRES will through an open and transparent process evaluate, select and contract eligible legal entity or entities (see below for details on eligibility) which have responded to the Request for Quotations (RFQ), whose integral part is this Terms of Reference (ToR), by submitting a valid quotation, according to this ToR requirements and other provisions set in the RFQ.

The contracted legal entity will then carry out activities in accordance to their accepted descriptions, contents and timeframe, in accordance to the submitted and approved quotation.

² The Call is available at: <http://www.europeanprogres.org/konten/en/305/>
